

TREEIB[®] 1500

IN THE **CORRECT WAY**

makes watering big trees feasible

High capacity for watering at the canopy dripline

REVOLUTIONARY WATERING METHOD FOR ESTABLISHED/MATURE/BIG TREES

Delivers the right amount of water to the right place at the right time with frequency 4-5 times a year. Ideal for watering all trees over 5 years at the site.

UNLOCKS NEW BUSINESS OPPORTUNITIES

Creates a new service segment of watering established trees. Adds value for customers and opens new revenue streams. Easy to use with no skilled labor required. Bags stay by the tree for only 8-12 hours, serving multiple trees efficiently.

ENHANCES TREE APPEARANCE AND HEALTH

Significantly improves tree aesthetics, vitality, and health within months.

VERSATILE AND ENVIRONMENTALLY FRIENDLY

Utilizes river water, applies soil amendments, and reduces soil contamination. Enhances resistance to pests and drought, and strengthens tree stability, preventing trunk failure.

ENSURES PROPER ABSORPTION & SAVES WATER

Simple, easy-to-clean openings over the whole bag bottom slowly release water and ensure deep soil saturation. The bag design also prevents tree water logging.

DURABLE AND LONG-LASTING

Designed to water at the canopy dripline on a large scale, with a service life of at least 10 years. Easily repairable.

SUPER SAFE FOR BOTH TREES AND OWNERS

Features multiple safety layers with heavy-duty, durable, toy-safety-certified European materials.

UNIQUE AND PATENTED

A groundbreaking product, patented in the USA, with no direct competitors on the market.

volume

396
gallons

WATERING BAG FOR MATURE TREES

NON-INVASIVE & PROVEN
BY 6 YEARS OF TESTING

U.S. Patent No. 11,991,960, produced in EU

water release time

8-12
hours

How To Water a Big Tree: **THE TREEIB[®] METHOD**

Watering schedule

Achieve Remarkable Growth and Aesthetic Appearance

- EARLY SPRING
- LATE SPRING
- SUMMER IF DROUGHT
- AUTUMN

Don't water trees only in summer. Use TREEIB[®] year-round to promote healthy growth, secure bigger revenues, and ensure a quick return on investment.

Generate maximum fine root biomass growth with our tested schedule, proven effective in moderate and Mediterranean climates. Dive deeper into the method to achieve significant results and ensure your trees' safety.
